Mr. Thomas Germin
Deputy Attorney General, State of New Jersey
1100 Raymond Blvd., Room 316
Newark, New Jersey 07102

Dear Tom:

The EPA Advanced Systems Branch has classified the photographic analysis of the oil lake in Kearny in a controlled data status and placed this analysis in a restricted area in the laboratory.

Since copies of this report have been released by you to all trial parties, I do not feel that this classification and safeguarding is necessary. However, I will continue to support this classification for 90 days from the date of this letter, unless I receive a written request specifying some other date.

I would be interested in receiving any comments you have on the aerial study, be they positive or negative, in hopes of optimizing the use and application of the technique to trial work. This would not only include the photographs but reviews, coordination etc.

Very truly yours,

Michael V. Polito
